Logstrup Licensed Panel Builder certificate

Awarded to

SIELE

FABRICATION DES TABLEAUX B.T. ET TRIPOLAIRE

BASSE TENSION

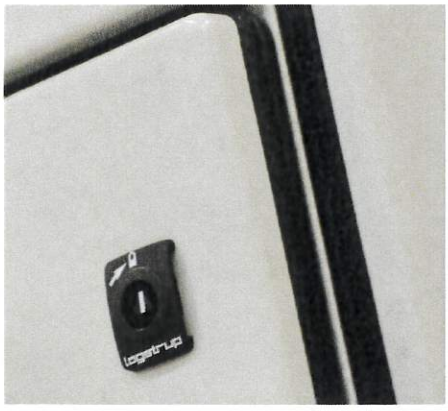

This is to certify that SIELE is a Løgstrup Licensed Panel Builder, fully licensed and qualified to design and assemble Løgstrup Low Voltage Distribution Switchboards and Motor Control Centers in accordance with Løgstrup standards and numerous type tests carried out by Løgstrup.
This certificate was achieved through the completion of a full software and product-training program in the mechanical and electrical design principles of the Løgstrup Modular System.

This certification is valid for 3 years.
